mlbricks

Recycling of Lego®-Bricks

We would like to collaborate with you and your brick partners.

We would also like to visit the exhibitions and present "mlbricks" there.

The "mlbricks" project scope

mlbricks recycles used Lego bricks. We receive the bricks as donations, refurbish and resell them. We clean them carefully and thoroughly preparing them for the sorting process. After the sorting process we store them in one of our warehouses. This allows us to have lego items and sets on hand.

This comprehensive process enables a wide range of activities and provides an entire re-tailing enterprise with purchasing, accounting, processing and sales.

Due to the diverse fields of activity, we employ people from different backgrounds and handicaps to offer people with disabilities a meaningful and value-adding field of work.

The miteinanderleben service gGmbH is a recognised inclusion company. As common daughter of the association miteinanderleben e.V., it is our goal to give people with disabilities permanent employment.

Our product range includes

- complete sets
- assortments
- minifigures
- single bricks
- special request which are not yet available in our shop
- custom designed stickers and visual assortments
